1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

This application is in condition for allowance except for the presence of claims 1-12 to products non-elected without traverse. Accordingly, claims 1-12 have been cancelled.

2. The following is an examiner's statement of reasons for allowance: Applicants' 11/1/04 amendments & remarks (p.10) discussing and citing taught energy gradients on p.11 of the specification are sufficient to overcome the prior art & 112 rejections of the action mailed 7/23/04. Concerning the provisional obviousness double patenting rejection over 10/611,240, which is the only remaining rejection, as this case is the earlier application with the other still awaiting prosecution; the rejection is withdrawn as per MPEP 1490 so that the present case may go to allowance.

Other art of interest for multilayer C protective layers on magnetic media, include Chour et al (2004/0161578 A1, not prior art, see claims 1-2 & 5-7) and Lairson et al (2004/0137207), but while they may also employ IBAD processes, they do not teach/claim the present claims energy sequences.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

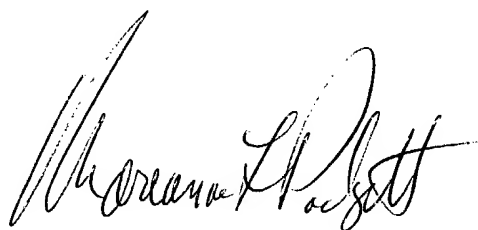

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marianne L. Padgett whose telephone number is (571) 272-1425. The examiner can normally be reached on M-F from about 8:30 a.m. to 4:30 p.m.
